Sir:

Transmitted herewith is PTO Form 1050 in duplicate for U.S. Patent No.

6,850,279.

The above-referenced patent is entitled to a claim of priority to International Application No. PCT/DK97/00261, as well as to Denmark Application 0676/96 filed June 18, 1996. However, the Patent that issued, did not identify any such foreign application priority data.

Applicant's attorney filed a Communication on June 21, 2004, noting that this application was filed December 17, 1998 under 35 USC 111, as a continuation of International Application PCT/DK97/00261. That is, the present application was filed within 30 months of the Danish Application. The Demand was filed in International Application PCT/DK97/00261, and a copy of the Demand was enclosed as evidence. Thus, the present application was filed while the International Application was pending. Also, a certified copy of Danish Application 0676/96 was filed on June 2, 2004, thus satisfying the requirements under 35 USC 119. A copy of the return receipt postcard is enclosed herewith evidencing receipt by the PTO of the copy of the Demand, as well as the certified copy of the Danish Application.

It is clear that the requested changes do not constitute new matter and this application does not require re-examination.

Since the error is attributed to the Office, it is believed that no fees are due. Should any further fee be required, the Commissioner is authorized to charge such fee to Deposit Account No. 50-0320.

Respectfully submitted,  
Frommer Lawrence & Haug LLP
